DETAILED ACTION

Allowable Subject Matter

Claims 1-13 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 10, Schwartz et al (US 6,801,767) teaches method and system for distributing multiband wireless communication signal; Lagrotta et al (US 20030027597) teaches use of over the air optical link within a geographically distributed station. The teaching of these prior arts either combined or alone fails to teach wherein the active radio power device, digital control logic and free space optical communication interface are housed in the same common disclosure such that the optical link is formed within the enclosure between the radio active power device and the digital control logic.

Dependent claims 2-9, 11-13 are allowed for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
